

Ideals for a good class (culture)

Communicate!

- We praise someone in class at least once a day
- We give each other constructive feedback
- We speak positively about and to each other

We are happy that you are here

- We all greet each other every morning
- We ask each other how our weekends have been
- We react if we have not received a message about an absence from a classmate
- We never close a group before everyone has found one

We are proud of our differences

- We talk with each other – all of us – also with those we do not seemingly have anything in common with
- We make an effort to get to know each other
- We drink together – also soda!
- We can disagree without getting into a fight or losing a friend

We are better together

- We laugh together every day
- We can work with anyone in class
- We stick together
- We invite everyone when we do something together as a class

We help each other to get the most out of our lessons

- We respect each other's time by being ready when class begins
- We respect each other by being quiet when others are speaking
- We take turns sitting in the front and back of the classroom
